

**Field      Manufacturing**

**Development of *Industrial Textile Fabrication* unit standard 31764**

MITO New Zealand Incorporated (MITO) has completed the development of the unit standard listed above.

**Date new version published**

**June 2019**

**Planned review date**

**December 2024**

**Summary**

This unit standard was developed to align with the New Zealand Certificate in Industrial Textile Fabrication (Level 3) [Ref: 2543]. The standard focusses on knowledge of organisational procedures and safe working practices specific to the industrial textile fabrication industry.

The development has resulted in fit-for-purpose assessment content being made available to industry that reflects current legislation and industry practice.

MITO's industrial textile fabrication working group endorsed the unit standard development. Representation in the working group included subject matter experts, industry representatives, business owners; trainers and assessors, and MITO representatives. The unit standard was circulated through working group's wider industry networks and all feedback was actioned where appropriate.

**Detailed list of unit standards – classification, title, level, and credits**
