

Field **Service Sector**

Review of *Rigging* unit standards

Subfield	Domain	ID
Lifting Equipment	Rigging	4217-4219

The Skills Organisation (Skills) has completed the review of the unit standards listed above.

Date new versions published

June 2019

Planned review date

December 2024

Summary

Skills and the rigging sector stakeholders held three meetings to discuss the graduate outcomes and conditions that had to be met for the rigging qualification at Level 5. The existing unit standards were reviewed alongside the qualification conditions and industry approved code of practice for the rigging sector. It was determined that due to the change in credit values and clarification relating to Level 5 skills and knowledge in relation to Level 4 unit standards, the above unit standards should be expired and replaced.

Main changes

- Unit standards 4217, 4218 and 4219 were replaced by unit standards 31815, 31816 and 31817 respectively.
- Levels for all standards were increased from 4 to 5 to reflect role competencies for advanced rigging work.
- Credit values were decreased to more accurately reflect the time taken to achieve the competencies of an advanced rigger.
- The replacement unit standards have been listed under the domain *Core Rigging*.

The last date for assessment of Category C unit standards is December 2021

Impact on existing organisations with consent to assess

Current consent for			Consent extended to		
Nature of consent	Classification or ID	Level	Nature of consent	Classification or ID	Level
Subfield	Lifting Equipment	4	Standards	31815, 31816, 31817	5
Domain	Rigging	4	Standards	31815, 31816, 31817	5
Domain	Rigging	8	Standards	31815, 31816, 31817	5
Standard	4217	4	Standard	31815	5

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

Service Sector > Lifting Equipment
