

Field Health

Revision and rollover of *Cervical Screening* unit standard 29556

Subfield	Domain	ID
Health Studies	Cervical Screening	29556

NZQA National Qualifications Services (NQS) has completed the revision and rollover of the unit standard listed above.

Date new version published

February 2020

Planned review date

December 2020

Summary

The review of this unit standard was part of the NQS work plan for 2019. The National Cervical Screening Programme (Ministry of Health) and the national moderator confirmed that the standard remains fit for purpose, and therefore, a revision and rollover was completed.

Main change

- The definition for *Priority group women* was changed to reflect the Ministry of Health, November 2019 increase of the starting age for screening to 25 years.
- The planned review date was changed from 31 December 2019 to 31 December 2020.
