Reviewed qualifications

[Ref]	Qualification title	Level	Credits
1814	New Zealand Certificate in Foundation Construction (Level 4) with strands in Concrete Foundation Walls and Concrete Slab On-ground and Pile Foundations	3	46-67

Review information

Review completed by	Building and Construction Industry Training Organisation (BCITO)
Reason for the review	Scheduled 5 year review
Date replacement qualifications listed	January 2025
Next qualification review date	January 2025

Summary of review and consultation process

The review was undertaken with a range of foundations construction sector stakeholders including residential and commercial building and concrete construction businesses, housing relocation businesses and representatives from Ministry of Business, Innovation and Employment Licenced Building Practitioner Scheme.

The consultation process confirmed that the qualification remained fit-for-purpose and that no substantial changes were required.

Main changes resulting from the review

Minor updates were made to the qualification including:

- Clarification of the graduate profile including strategic purpose, employment and education pathways.
- Minor wording changes to clarify the intention of graduate outcome 1.
- Clarification of the minimum achievement and general conditions of the programme.
- Conditions relating to the qualification outcomes were removed.

Review outcome
