Review of Workplace Emergency Risk Management unit standards

Subfield	Domain	ID
Community and Workplace Fire and Emergency Management	Workplace Emergency Risk Management	22446-22448

The Skills Organisation has completed the review of the unit standards listed above.

Date new versions published November 2020

Planned review date December 2024

Summary

Throughout 2018-2020, The Skills Organisation (Skills) conducted a review of the unit standards listed above.

The review process involved working closely with the Department of Prime Minister and Cabinet (DPMC), and face-to-face consultation with stakeholders in the civil defence and emergency management sector. There was extensive consultation with wide-ranging stakeholders, and the feedback received resulted in many iterations until attaining consensus amongst industry.

Main changes

- Unit 22446 was designated expiring and replaced by four new unit standards to better reflect the skillset and knowledge needed in each specialised area.
- Unit 22447 was designated expiring and replaced by two new unit standards to better reflect the skillset and knowledge needed.
- Unit 22448 was designated expiring and replaced by two new unit standards to better reflect the skillset and knowledge needed.
- All unit standards were updated to align to the New Zealand Coordinated Incident Management System 3rd edition.
- The new unit standards were separated into theory and application-based standards. However, unit standard 32162 contains a combination of theory and application.

Category C unit standards will expire at the end of December 2021
