

Field Engineering and Technology**Review of *Gunsmithing* unit standards**

Subfield	Domain	ID
Mechanical Engineering	Gunsmithing	9125-9131, 9720-9724,22324-22326

Competenz has completed the review of the unit standards listed above.

Date new versions published**July 2021****Summary**

These unit standards were reviewed between October and December 2020 as part of the qualification and programme review for Mechanical Engineering qualifications.

This review was completed in consultation with stakeholders, particularly past users of these unit standards and those organisations holding consent to assess. These stakeholders confirmed there was no intention to use these unit standards going forward, and are no longer needed by industry, therefore recommending expiry.

Main changes

- All unit standards were set to expire without replacement as they are no longer required.

These Category D unit standards will expire at the end of December 2023**Detailed list of unit standards – classification, title, level, and credits**

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
