	Milk Processing	4825, **29088**
	Milk Products	21123, 32409

The Primary ITO has completed a review and revision of the unit standards listed above. The standard that has been reviewed is listed above in **bold**.

Date new versions published   **July 2021**

Planned review date   **December 2025**

Summary

The Primary ITO reviewed unit standard 29088 as it was overdue for review. Consultation was carried out in May 2021 where key industry stakeholders provided feedback to ensure the standard was fit for purpose. Consent to assess holders and stakeholders had the opportunity to give comment on the email sent asking for feedback to amendments. This feedback was addressed where appropriate.

The Primary ITO revised Dairy Processing unit standards 4825, 21123, 32409 and 32410. These standards were reviewed in May 2021, however, errors were noted on publication. Further amendments were suggested by industry to selected unit standards were made to ensure they are fit for purpose. Consultation was carried out in June 2021 where stakeholders had the opportunity to give comment on the email sent asking for feedback to amendments. This feedback was addressed where appropriate.

Main changes
- Unit standard 29088 was reviewed to better reflect current industry requirements.
- Four unit standards were revised to ensure they are fit for purpose.
- Performance criteria and range statements were amended to ensure unit standards remained fit for purpose.
- An additional outcome was added to unit standard 21123 to align the inclusion of a theory outcome with other unit standards in the same domain.

The last date for assessment of superseded versions of Category B unit standards is December 2023

Detailed list of reviewed unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
