| Subfield | Domain | ID |
|--------------------------------------|------------------------------|----------------------------|
| Civil Plant Operation and Management | Civil Plant Operation | 6468 |
| Civil Works and Services | Civil Construction Works | 23279, 23280 |
| Infrastructure Works | Generic Infrastructure Works | 23283, 23288, 23289, 27502 |

Connexis has completed the reinstatement of the unit standards listed above.

Date new versions published

May 2021

Summary

These unit standards were designated expiring in January 2019 with a last date for assessment specified for end of December 2020. However, they are required to allow learners to complete the programme leading to the New Zealand Certificate in Civil Infrastructure Trades (Pipe Installations) (Level 4) [Ref: 2965] which expires in December 2021.

Main changes

These unit standards were reinstated as expiring. The last date of assessment for the reinstated version of these standards is 31 December 2021.
