Review information

Qualification Developer	Primary ITO
Reason for the review	To extend last dates for entry and assessment to qualifications
Review date	October
Outcome date	October 2021
Next review dates	2022/2023

Summary of review and consultation process

Due to supply constraints, it has been challenging to deliver training leading to the replacement qualification, arising from the review of the above qualifications, the New Zealand Certificate in Agriculture (Level 3) with strands in Dairy Farming, and Meat and/or Fibre [Ref: 3869]. Following consultation with industry (ahumai) stakeholders it has been identified that an extension to the last date for entry and last date for assessments of the replaced qualifications is required in order not to disadvantage learners.

Primary ITO have developed a full set of resources for the replacement qualifications. These resources have been developed for an online platform however under current restrictions delivery of IT equipment and induction has been difficult. Primary ITO has serious concerns that learners will be disadvantaged by being enrolled into the online platform and be unable to complete the qualifications before the last date for assessment of the current version(s).

Main changes resulting from the review

Change report for review of new zealand qualifications

Last dates for entry and Last dates for assessment for the qualifications have been extended.
