Revision of *Telecommunications* unit standards

Subfield	Domain	ID
Telecommunications	Telecommunications – Service Delivery	18708, 27913, 27915, 27916, 30521

Connexis Infrastructure ITO has completed the revision of the unit standards listed above.

Date new versions published

October 2021

Planned review date

December 2026

Summary

The purpose of this revision was to respond to changes in industry requirements identified by the telecommunications industry reference group.

The unit standard revision process involved consultation with organisations with consent to assess, the telecommunications industry and technical advisers during April and May 2021. Industry feedback was received by email and actioned where appropriate.

Main changes

- Guidance information, legislation, range statements, and definitions were updated to align with current industry requirements.
- A definition for complex telecommunications networks was added to unit standard 18708.
- Outcome 6 was removed from unit standard 18708 as it is no longer required.
- Outcome 2 was removed from unit standard 27913 as it is no longer required.
- A definition of basic knowledge was added to unit standards 27913 and 27915.
