# Change report for the republication of Infrastructure Works New Zealand Qualifications

### Republished qualifications

[Ref]	Version	Qualification title	Level	Credits
3856	2	New Zealand Certificate in Infrastructure Works with an optional strand in Plant Operation	3	75-95
3858	2	New Zealand Certificate in Infrastructure Works (Pipeline Construction and Maintenance) with strands in Drinking-water, Stormwater and Wastewater, and Trenchless Technologies	4	160
2725	2	New Zealand Certificate in Infrastructure Works (Civil) with strands in Earthworks, Road Construction, and Road Maintenance	4	160

### Review information

<b>Qualification Developer</b>	Waihanga Ara Rau Construction and Infrastructure Workforce Development Council
<b>Reason for the republication</b>	To extend last dates of entry and assessment
<b>Republication date</b>	August 2022
<b>Next review date</b>	July 2026

#### Summary of republication process

##### New Zealand Certificate in Infrastructure Works (Level 3) [Ref: 3856]

This qualification is due to expire 31 December 2023. Extension to the last dates for entry and assessment will allow time for current learners time to complete this qualification. These learners will not be able to transition to the replacement qualification [Ref: 4440] due to limited scope of work for completing their area of specialisation within the current programme.

##### New Zealand Certificate in Infrastructure Works (Pipeline Construction and Maintenance) (Level 4) with strands in Drinking-water, Stormwater and Wastewater, and Trenchless Technologies [Ref: 3858]

Extension to last date of assessment for version 1 will allow time for current learners to complete the current programme whilst new programme development is completed.

##### New Zealand Certificate in Infrastructure Works (Civil) (Level 4) with strands in Earthworks, Road Construction, and Road Maintenance [Ref: 2725]

Extension to the last date of assessment of version 2 will allow the current learners to complete the current programme whilst new programme development is completed.

### Main changes resulting from the republication

- New Zealand Certificate in Infrastructure Works (Level 3) [Ref: 3856] Last date of entry will extend from 31 December 2022 to 31 December 2024, with the last date of assessment and qualification expiry extending from 31 December 2023 to 31 December 2025.
- New Zealand Certificate in Infrastructure Works (Pipeline Construction and Maintenance) (Level 4) with strands in Drinking-water, Stormwater and Wastewater, and Trenchless Technologies [Ref: 3858] (Version 1) Last date of assessment will extend from 31 December 2023 to 31 December 2025.
- New Zealand Certificate in Infrastructure Works (Civil) (Level 4) with strands in Earthworks, Road Construction, and Road Maintenance [Ref: 2725] (Version 2) Last date of assessment will extend from 31 December 2023 to 31 December 2025.

### Any additional information

It is not intended that any existing candidate be disadvantaged by these transition arrangements; however, anyone who feels they have been disadvantaged may appeal to:
