2603	New Zealand Diploma in Information Systems (Level 6) with strands in Business Analysis, User Experience, IT Project Management, Information Systems Innovation, and Data Analysis	6	120

Review information

Review completed by	Toi Mai Workforce Development Council
Reason for the review	Extensions to last dates for entry and/or assessment
Review date	December 2022
Outcome date	December 2022
Next qualification review date	May 2025

Summary of republication process
The extensions of the last date for assessment (LDA) or last date for entry to the superseded/expiring versions of the above qualifications has been undertaken following discussions with providers.
This one-year extension of the last date for assessment will allow providers time to update existing programmes leading to superseded versions of the qualifications.
The extension of the last date for entry for [Ref: 2591] is to allow providers to enrol ākonga up until the end of June 2023 in programmes leading to the expiring qualification.
This extension also enables providers to avoid duplication of effort for programme and resource redevelopment.
For information on the previous qualification review, see: https://www.nzqa.govt.nz/qualifications-standards/qualifications/it-computing-quals/

Main changes resulting from the review
• The last date for assessment of the superseded versions of the qualifications, except [Ref: 2591], was extended from 31 December 2022 to 31 December 2023.
• The last date for entry to programmes leading to expiring qualification [Ref: 2591] was extended from 28 February 2023 to 30 June 2023. The last date of assessment for this qualification was not changed.
• The Qualification Developer was updated from NZQA National Qualifications Services to Toi Mai Workforce Development Council.
