Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed the rollover, revision and review of the unit standards listed above.

Date new versions published December 2022

Planned review date for rollover and revision standards December 2023
Planned review date for new standards December 2027

Summary

Waihanga Ara Rau carried out the review of the above carpentry unit standards from August 2022-October 2022. The associated qualification review of the New Zealand Certificate in Carpentry [Ref: 2738-2] was published in January 2022. Due to the qualification review only taking place in January, Waihanga Ara Rau decided to rollover and revise the unit standards with a view to fully reviewing them in 2023 when the outcomes of the Reform of Vocational Education are rolled out.

The unit standard consultation included industry representatives, BCITO, Roofing Association New Zealand, Certified Builders, MBIE and providers with consent to assess. Consultation involved emails, phone conversations and online meetings to confirm that the two new unit standards created in this review are fit for purpose.

Main changes

- 28 unit standards were rolled over and revised to extend the review date from 31 December 2022 to 31 December 2023 and to update Guidance Information.
- Unit standard 30845 was reviewed and is set to expire 31 December 2026 in line with the last date for assessment of New Zealand Certificate in Carpentry [2738-1].
- Two new unit standards 33137 and 33139 have been created to replace unit standard 30845. The planned review date for the new standards is 31 December 2027.

Category C unit standard 30845 will expire 31 December 2026
