Change report for the republication of Joinery New Zealand Qualification

Republished qualification

[Ref]	Version	Qualification title	Level	Credits
2343	2	New Zealand Certificate in Joinery (Level 4) with strands in Cabinetry, Timber Door and Window, Stairs, and Bench Top and Specialty Surfaces	4	165-205

Review information

Qualification Developer	Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council
Reason for the review	To extend the last date of assessment for version 1
Review date	July 2022
Outcome date	July 2022
Next review date	October 2025

Summary of review and consultation process

The last date of assessment leading to version 1 of this qualification has been extended.

This is to accommodate learners who will be unable to complete learning and assessment before the previous last date of assessment for version 1 due to the delay on new and updated unit standards.

The new and updated unit standards are still undergoing industry consultation and development with Waihanga Ara Rau Workforce Development Council and without the updated unit standards, providers have been unable to complete programme development.

Additionally, changes within provider organisations due to the Reform of Vocational Education (RoVE) have impacted on internal resourcing to enable completion of programmes, programme approval request to NZQA, and learning resources to support the replacement qualifications.

Main changes resulting from the review

The last date of assessment for version 1 of this qualification has been extended from 31 December 2022 to 31 December 2023.

The Qualification Developer was updated from Building and Construction Industry Training Organisation (BCITO) to Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council.

Transition information

Ref:	Version	Qualification title	Last date of entry*	Last date of assessment
2343	1	New Zealand Certificate in Joinery (Level 4) with strands in Cabinetry, Timber Door and Window, Timber Stairs, Laminate Fabrication, and Cabinetry Installation (with optional strand in Computer Numerical Controlled Machinery)	N/A	31 December 2023
