Summary

The scheduled review of the Level 5 Public Health Practice unit standards was undertaken by Careerforce in 2021. This review resulted in all other standards in the suite being designated expiring. At that stage Ringa Atawhai, the sole provider to have assessed against unit standard 28133 since its registration, was the exception and requested that it be reviewed and retained so that it could be used to assess learner achievement in a micro-credential that was being developed.

Subsequently, however, Ringa Atawhai developed alternative assessment for the micro-credential meaning that unit standard 28133 is no longer required. This standard was therefore also expired.

Main changes

- Unit standard 28133 was designated expiring and will not be replaced.

Category D unit standard will expire at the end of December 2023
