Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council has completed the review of the unit standards listed above.

**Date new versions published**

**June 2022**

**Planned review date**

**December 2027**

**Summary**

Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council reviewed the commercial road transport and driving unit standards to ensure they were fit-for-purpose for the industry sectors.

Hanga-Aro-Rau was supported by commercial road transport and driver education working groups, including subject matter experts and industry association representatives which formed an advisory group, to review the outdated unit standards. Four meetings were conducted over the period March to April 2022 involving advisory group members who offered feedback on these unit standards. The reviewed unit standards were endorsed for listing by the advisory group in April 2022.

**Main changes**

- Purpose statements, guidance information, legislation, references, definitions, outcomes, performance criteria and range statements were amended to ensure unit standards are current and fit for purpose.
- Credit value for unit standard 3470 was increased to accurately reflect the notional hours required to complete training and assessment.
- Title of unit standard 14511 was amended to reflect a specific purpose for the learner to demonstrate road transport legislation.
- Title of unit standard 14523 was amended to align with the Outcomes.
- Title of unit standard 20180 was amended to include driving context.
- Unit standard 23234 was designated expiring and will not be replaced (Category D) due to no usage.

**Category D unit standards will expire at the end of December 2023**

**The last date for assessment of superseded versions of Category B unit standards is December 2024**
