Review of *Computer Engineering* unit standards

Subfield	Domain	ID
Electronic Engineering	Computer Engineering	22712, 22713

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed the review of the unit standards listed above.

Date new versions published

May 2022

Summary

The review resulted in a decision to designate these unit standards as expiring due to non-usage for the last five years.

The recommendation for expiry was well canvassed by email to organisations with consent to assess obtained through the NZQA website. There is good support for the expiry and no objections.

Main changes

- Unit Standards 22712 and 22713 were set to expire without replacement.

These Category D unit standards will expire at the end of December 2022.

Detailed list of unit standards – classification, title, level, and credits

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
