

## Field      Service Sector

### Review of *Power-operated Elevating Work Platforms* unit standards

Subfield	Domain	ID
Cranes	Power-operated Elevating Work Platforms	23960, 23961, 23962, 23963, 23964, 23966

Waihangā Ara Rau Construction and Infrastructure Workforce Development Council has completed the review of the unit standards listed above.

**Date new versions published**

**27 October 2022**

**Planned review date**

**December 2027**

### Summary

The *Power-operated Elevating Work Platforms* unit standards required a mandatory review. These unit standards were transferred from the Skills Transitioning Industry Training Organisation to Waihangā Ara Rau Construction and Infrastructure WDC in October 2022.

The unit standards are well used by several industries and the training and assessment is provider based.

The Higher Industries Association New Zealand, the Elevating Works Platform Association, employers, providers and WorkSafe New Zealand represented on the Technical Advisory Group (TAG) to review the unit standards during June to August 2022. Three TAG meetings were held to review the unit standards.

### Main changes

- The Guidance Information was updated to update the Health and Safety at Work Act 2015, Electricity (Safety) Regulations 2010 and the Best Practice Guidelines for Mobile Operating Platforms (August 2014).
- In all the unit standards, outcome titles, performance criteria and range statements were updated to reflect best practice in industry.
- Unit standards 23960, 23961, 23962, 23963 and 23964 had the range of PC 2.3 updated to suit the type of elevating works platform.
- Title of unit standard 23966 was amended to industry requirements for their use (changed from legislative requirements).

**The last date for assessment of superseded versions of Category B unit standards is 31 December 2024.**

### Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new ID
<b>D</b>	Standard will expire and not be replaced
