Please contact the Workforce Development Council (WDC) or Standard Setting Body (SSB) listed in each CMR document for more information on future CMR review dates.

### Summary of republication

This republication has been carried out across all active CMRs in order to correct inconsistencies identified in version and contact information after standard setting responsibilities were transferred from Industry Training Organisations to the newly established Workforce Development Councils in October 2021.

CMRs that were identified as inactive (no longer containing current or expiring unit standards) during the republication process have been removed from the NZQA website.

### Main changes

- Version numbers have been corrected where required.
- Coverage data has been updated.
- WDC/SSB contact details have been updated.
