

Field **Engineering and Technology**

Rollover of *Infrastructure Works* unit standards

Subfield	Domain	ID
Infrastructure Works	Structural Foundations	30808, 30809, 30912-30915

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed the rollover of the unit standards listed above.

Date new versions published

September 2022

Planned review date

December 2023

Summary

Within the *Structural Foundations* domain of unit standards, six unit standards are due for review in 2022, and the remaining four unit standards are due for review in 2023. The review of the entire domain will now take place in December 2023 and the qualification review will be brought forward to support alignment between qualification and unit standards.

Main changes

The planned review date for the unit standards listed above was changed from 31 December 2022 to 31 December 2023.
