

Field Planning and Construction

Rollover of *Construction Trades* unit standards

Subfield	Domain	ID
Construction Trades	Fibrous Plaster	31294–31308
	Plaster Board	31309–31328
	Specialist Interiors	31250–31261

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed the rollover of the unit standards listed above.

Date new versions published

April 2023

Planned review date

December 2025

Summary

All unit standards within the *Fibrous Plaster*, *Plaster Board*, and *Specialist Interiors* domains are due for review in December 2023. The unit standards will be rolled over as they remain fit for purpose. The review of the qualifications to which these unit standards align will be brought forward to be completed by December 2025.

All providers with consent to assess and industry stakeholders were informed of the intention to carry out the rollover and invited to comment. There were no objections to the proposed rollover.

Main changes

- References within the unit standards to the Specifications to which they are aligned have been updated as the standard setting responsibility for these Specifications was transferred from BCITO to Waihanga Ara Rau in 2021.
- The planned review date for all unit standards listed above was changed from 31 December 2023 to 31 December 2025.
