Toitū te Waiora Community, Health, Education, and Social Services Workforce Development Council has completed the revision of one unit standard, listed above.

Date new versions published

December 2023

Planned review date

December 2026

Summary

Version 4 of this unit standard was published on 25 May 2023 following a revision in which ‘trapping’ was added to the range of performance criterion 3.2. Inclusion of trapping in this standard followed a formal request from the coroner. A definition for trapping was also added in the Guidance Information.

Feedback from Careerforce Te Toi Pūkenga suggested that the definition of trapping in version 4 of the unit standard was too narrow, and that performance criterion 3.1 should be amended to make trapping compulsory.

Main changes

- The definition of trapping in Guidance Information has been replaced by a broader definition.
- The range statement for performance criterion 3.1 has been amended to make trapping compulsory.
- The range statement for performance criterion 3.2 has been amended to remove trapping as a compulsory item; it remains as an optional item.
- The Last Date of Assessment for Version 3 of this standard has been extended to 31 December 2024, allowing providers to design assessment against Version 5 of the standard.
