Summary of review and consultation process

Providers of programmes leading to these qualifications initiated this review by contacting Hanga Aro-Rau requesting the extension of the last date of assessment for the superseded versions of the above qualifications.

The extension allows providers to continue enrolling ākonga in programmes leading to the qualifications and also allows time for provider programme and resource redevelopment.

The extension also ensures ākonga are not disadvantaged.

Main changes resulting from the review

The last date of assessment for version 1 of these qualifications has been extended from 31 December 2023 to 31 December 2025.

The qualification developer details were updated from MITO NZ to Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council.
