

**Field      Service Sector**

**Development of Commercial Road Transport unit standard 33277**

Hanga-Aro-Rau Workforce Development Council has completed the development of a new unit standard listed above.

**Date new version published**

**June 2023**

**Planned review date**

**31 December 2028**

**Summary**

Hanga-Aro-Rau Workforce Development Council undertook a combined review of the Commercial Road Transport (CRT) qualifications and unit standards in consultation with industry stakeholders.

Smaller technical advisory groups were formed to review specialised areas of CRT, such as groundspreading. Consultation meetings were held online throughout September 2022 – May 2023 with representatives from the industry association GroundspreadNZ, Ministry of Business, Innovation and Employment, employers and training providers. Feedback from industry stakeholders identified a need for training in practical heavy vehicle recovery skills. This resulted in the development of a new unit standard and is intended to be used towards a newly developed micro-credential in heavy vehicle recovery skills.

**Main changes**

A new level 4 unit standard was developed to meet industry need for heavy vehicle recovery skills, which can be applied in either on-road or off-road environments. It is intended for recovery events where a vehicle (V) endorsement is not required. This unit standard does not replace the V endorsement.

**Detailed list of unit standards – classification, title, level, and credits**

All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new ID
<b>D</b>	Standard will expire and not be replaced
