Review of *Health and Disability Principles in Practice* unit standard 28522

Subfield	Domain	ID
Health, Disability, and Aged Support	Health and Disability Principles in Practice	28522

Toitū te Waiora Community, Health, Education and Social Services Workforce Development Council has completed the review of the unit standard listed above.

Date new versions published May 2023

Planned review date May 2028

Summary

This unit standard was reviewed because it had passed its scheduled review date. Consultation was undertaken between 5 October 2002 and 16 December 2022. The consultation included representatives from Toitū te Waiora, Te Pūkenga, and sector representatives who responded to the consultation notification.

The review panel also made recommendations around terminology and resource materials for the Guidance Information, which have been incorporated in the new version.

Main changes

- The single outcome was split into four outcomes to clarify the assessment requirements.
- The requirements were amended to require knowledge of both Treaty partners, Tangata Whenua and Tangata Tiriti. A third requirement for one other culture was added to allow assessment against a culture not represented by Te Tiriti o Waitangi but which has relevance to the candidate. The third requirement was balanced in terms of credit value against the removal of the requirement for self-reflection.
- Resources were added to the Guidance Information to assist with development of assessment resources and learning.
- The assessment conditions were amended to make clear that development theories do not necessarily have to be drawn from textbooks.

The last date for assessment of superseded versions of Category B unit standards is December 2025

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
