Change report for *Glass Processing* New Zealand qualification

Republished qualification

Ref	Version	Title	Level	Credits
2946	2	New Zealand Certificate in Glass Processing (Level 4) with optional strands in Manufacturing Screen Printed Glass, Manufacturing Laminated Glass, and Computer Numerically Controlled Machinery Operation	4	125-140

Republished information

Qualification Developer	Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council
Reason for the republication	To extend the last date of assessment
Outcome date	October 2023
Next review date	August 2026

Summary of development/review and consultation process

Representatives from the Glass Processing industry and providers requested an extension to the last date of assessment for superseded version 1 of the qualification.

The reason for the extension was to allow a reasonable amount of time for the redevelopment of programmes, new delivery plans and redeveloped learning, teaching, and assessment resources while ongoing delivery is available for learners during the transition.

The date has now been extended to 31 December 2025.

Main changes resulting from the development/review process

- The last date of assessment for version 1 of this qualification has been extended from 31 December 2023 to 31 December 2025.
- Standard Setting Body details were updated in the 'General conditions for the programme' and 'additional transition information' sections from BCITO to Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council.

Transition information

Ref:	Version	Qualification title	Last date of entry*	Last date of assessment
