

## Field      Service Sector

### Rollover and Revision of *Aeronautical Engineering* unit standards

Subfield	Domain	ID
Aeronautical Engineering	Aeronautical Electroplating	23594-23600, 25612, 30693, 30694
	Aircraft Furnishings and Equipment	4002-4011
	Aircraft Painting	4012-4015
	Aircraft Servicing	3901-3904, 3906-3909, 3911-3915, 3917, 3929, 3930, 20629-20631, 20634, 23165-23167, 30698

Ringa Hora Services Workforce Development Council has completed a rollover and revision of the unit standards listed above.

**Date new versions published**

**April 2024**

**Planned review date**

**December 2027**

#### Summary

Ringa Hora Services Workforce Development Council, in consultation with stakeholders, has revised and rolled over forty-eight Aeronautical Engineering unit standards.

This will form part of several applications due to the number of unit standards going through the same maintenance process.

The opportunity was taken to carry out amendments for consistency of formatting styles and wording of unit standards within the domains, and to correct an issue where performance criteria had been removed from two unit standards.

The sector has confirmed that these standards are still fit for purpose, and with skill standards being developed to align with the Aeronautical Engineering suite of qualifications due for review by December 2027, agreed there is little benefit in making significant changes to these unit standards at this time.

#### Main changes

- Unit standards 3904, 3914, 23595-23600, 25612, 30693, and 30694 have all received minor amendments for consistency.
- Unit standard 3929 had performance criterion 1.3 reinserted after inadvertent deletion during the last review, and the range was moved back from the outcome to the performance criterion.
- Unit standard 3930 had performance criteria 1.3 and 2.1 reinserted after inadvertent deletion during the last review, and the respective ranges were moved back from the outcomes to the performance criteria.
- Unit standard 20630 had an error corrected to guidance information 3.
- The planned review date was extended to 31 December 2027.
- Standard setting body information was updated from ServiceIQ to Ringa Hora Services Workforce Development Council.
