

## Field      Planning and Construction

### Registration of *Carpentry* Skill Standard

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has registered a new skill standard in the *Carpentry* domain for the timber structure manufacturing industry.

**Date new version published**

**February 2024**

**Planned review date**

**December 2028**

### Summary

Following the review of the New Zealand Certificate in Timber Structure Manufacture (Level 3) [Ref: 4319] which resulted in the addition of a new strand in Flooring Cassette Manufacture, new skill standard 40000 *Manufacture a timber flooring cassette* was developed to recognise the competencies required to achieve this strand of the qualification.

This new standard was developed in consultation with technical advisory group representing Frame and Truss Manufacturers Association (FTMA) members, frame and truss manufacturing businesses both large and medium and BCITO Te Pūkenga as the only provider of this qualification. Online consultation meetings were held through May and June to develop the new standard. Wider consultation on the new standard was provided through the Waihanga Ara Rau website and extended to FTMA membership. The technical advisory group supports the development of the new standard.

### Main changes

- One new skill standard developed - Skill Standard 40000 Level 3, 20 credits.

### Detailed list of standards – classification, title, level, and credits

Planning and Construction > Construction Trades > Carpentry
