This standard has been revised to remove potential duplication and clarify the evidence required. This duplication was brought to Toi Mai's attention during the pre-moderation process. Changes were made to the standard and then checked with industry experts and providers. Changes made do not affect the outcome and overall intent of the standard.

Main changes

- The content of PC1.3 was split across PC2.4 and PC3.4 to avoid duplication, and to ensure clear alignment between outcomes, performance criteria and ranges.
- The titles for outcomes 1 and 2 were then amended to better reflect the content assessed.
