Subfield	Domain	ID
Occupational Health and Safety	Hazardous Substances and Materials	29765-7

Toitū te Waioira Community, Health, Education, and Social Services Workforce Development Council has completed the review of three-unit standards listed above.

Date new versions published

June 2024

Planned review date

December 2029

Summary

Version 2 of these unit standards were published following a review on 22 August 2019. Toitū te Waioira was approached by WorkSafe in 2022 in regard to the unit standards listing Australian units of competency that are no longer offered.

Consultation was undertaken with Industry and Providers via one to one and small group meetings. Feedback was collated, analysed, and actioned.

Main changes

- The reference to the 'White Card (Australia)' was removed in Unit Standards 29765 and 29766.
- The reference to the Australian unit of competency CPCCE3015A in Guidance Information was removed in Unit Standards 29765, 29666 and 29767.
- Iterative changes were made to other Guidance Information text and references in Unit Standards 29765, 29666 and 29767.
- Performance Criterion 2.8 was reworded to replace 'ensure' with 'take steps to confirm that' in Unit Standard 29767.

Impact on Consent and Moderation Requirements (CMR)

The changes to the three unit standards required an edit to the Consent and Moderation Requirements 0121 document.

The last date for assessment of superseded versions of Category B unit standards is 31 December 2025.
