Ringa Hora Services Workforce Development Council has completed a rollover and revision of the unit standards listed above.

**Date new versions published**

**June 2024**

**Planned review date**

**December 2027**

#### Summary

Ringa Hora Services Workforce Development Council, in consultation with stakeholders, has revised and rolled over sixty-five Aeronautical Engineering unit standards.

This will form part of several applications due to the number of unit standards going through the same maintenance process.

The opportunity was taken to carry out amendments for consistency of formatting styles and wording of unit standards within the domains.

The sector has confirmed that these standards are still fit for purpose, and with skill standards being developed to align with the Aeronautical Engineering suite of qualifications due for review by December 2027, agreed there is little benefit in making significant changes to these unit standards at this time.

#### Main changes

- *Avionic Electrical Repair* unit standards 3955, 3978, 3982, 3999, 22556, 22943, 30699, and 30700 have all received minor amendments for consistency.
- *Avionic Instrument Repair* unit standards 3956, 3964, 3967, 3981, 3983, 3994, 22557- 22559, 22562-22564, 22933, and 22935 have all received minor amendments for consistency.
- *Avionic Radio Repair* 3979, 3996, 3998, 22546-22548, 22552, and 30703 have all received minor amendments for consistency.
- The planned review date was extended to 31 December 2027.
- Standard setting body information was updated from ServiceIQ to Ringa Hora Services Workforce Development Council.
