

Field Community and Social Services

Registration of *Core Health* skill standards

Toitū te Waiora Community, Health, Education, and Social Services Workforce Development Council has completed the development of two skill standards to be listed in the *Core Health* domain.

Date new version published

May 2024

Planned review date

December 2029

Summary

Toitū te Waiora Community, Health, Education, and Social Services Workforce Development Council consulted with FASD-CAN Inc. Aotearoa (Fetal Alcohol Spectrum Disorder Care Action Network) to develop two skill standards that would help support best practice for those who are working alongside and engaging with people with FASD in our communities. These skill standards have been designed to be used for assessment within programmes leading to qualifications across various sectors including Social and Community Services, Community Health work and Disability Support.

Wider consultation on both the new skill standards was provided through the Toitū te Waiora website. FASD-Can Inc. Aotearoa supports the development of the new skill standards.

Main changes

- Two new skill standards were developed.

Detailed list of skill standards – classification, title, level, and credits

All changes are in **bold**.

Community and Social Services > Health, Disability, and Aged Support > Core Health
