Registration of *Civil Plant Operation* skill standards

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed the development of two skill standards to be listed in the *Civil Plant Operation* domain.

Date new versions published

May 2024

Planned review date

December 2029

Summary

The skill standards listed above were developed at the request of demolition organisations to address a gap in skills required by the sector. Waihanga Ara Rau worked collaboratively with representatives from the demolition sector, including the New Zealand Demolition and Asbestos Association (NZDAA), to develop these skill standards. Consultation was held from 21 April 2023 to 14 November 2023 through email, survey, face-to-face hui and online meetings. Industry representatives endorsed the new skill standards for registration.

Main changes

- Two new skill standards were registered.

Detailed list of skill standards – classification, title, level, and credits

All changes are in **bold**.

Engineering and Technology > Infrastructure Works > Civil Plant Operation

ID	Title	Level	Credit	Review Category
40121	Carry out site safety spotter duties on a worksite	3	10	NEW
