Expiry of *Temporary Traffic Management* unit standards

Subfield	Domain	ID
Infrastructure Works	Temporary Traffic Management	31957-31963

Waihanga Ara Rau Construction and Infrastructure Workforce Development Council has completed a review of the unit standards listed above.

Summary

In October 2024 a revision of temporary traffic management unit standards was initiated by Waka Kotahi NZ Transport Agency who will be turning off the warrant system and retiring the Code of Practice for Temporary Traffic Management (CoPTTM) as the industry moves toward a risk-based approach to TTM.

Following this revision, the unit standards were reviewed and the Temporary Traffic Management (TTM) Industry Steering Group and Providers with consent to assess agreed with the decision to expire the above unit standards.

Main Changes

- Unit standards 31957 – 31963 were set to expire.

Category D unit standards will expire at the end of December 2026.

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
