Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council has completed the revision of the unit standards listed above. The unit standards in *italics* are rolled over.

Date new versions published

January 2025

Planned review date (no change)

December 2026
December 2027 (for 24085)

Summary

Hanga-Aro-Rau Manufacturing, Engineering and Logistics WDC has been asked by providers to extend the last date of assessment (LDA) for the unit standards listed in this application.

There is a cohort of 77 learners who will not be able to complete their program before the current LDA of 31/12/24. Learners cannot transition to a program leading to New Zealand Certificate in Automotive Reglazing (Level 4) [Ref: 2947-2], as there is no approved program. The two unit standards expiring on 31/12/2024 (28766 and 28767) are also included in programmes leading to New Zealand Certificate in Automotive Reglazing (Level 4) [Ref: 2947-1].

Main changes

- The last date for assessment of superseded versions of the unit standards listed below was extended from 31 December 2024 to 31 December 2025.

Unit ID	Superseded Version/s
22348	3
22350	3
22353	3
24085	2, 3 and 4
26078	2
26080	2
28766 (expiring)	All versions
28767 (expiring)	All versions
28768	1

Detailed list of unit standards – classification, title, level, and credits

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

Engineering and Technology > Motor Industry > Vehicle Bodywork

ID	Title	Level	Credit
24085	Demonstrate knowledge of automotive glass	3	2

Manufacturing > Glass and Glazing > Automotive Reglazing

ID	Title	Level	Credit
22348	Repair laminated automotive glass	4	5
22350	Remove, manufacture, and replace glass in automotive mirrors	4	5
22353	Remove, refit, and test electrical and electronic components for automotive reglazing	3	5
26078	Demonstrate knowledge of quality standards and land transport rules for automotive reglazing	3	2
26080	Demonstrate knowledge of the surface preparation and use of adhesives and sealants for automotive reglazing	3	3
28766	Carry out pre-work inspection for automotive reglazing	4	5
28767	Demonstrate knowledge of automotive fixtures and fittings related to automotive reglazing	3	5
28768	Remove and replace automotive glass	4	20
