

**Field      Agriculture, Forestry and Fisheries**

**Rollover and revision of *Pig Husbandry* unit standard 26161**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Pork Production	Pig Husbandry	26161

Muka Tangata - People, Food and Fibre Workforce Development Council has completed the rollover and revision of the standard listed above.

**Date new version published**

**January 2025**

**Planned review date**

**December 2026**

**Summary**

A provider drew Muka Tangata's attention to inconsistencies in unit standard 26161 Outcome 3 performance criteria (PC). A revision is needed to conflate PC 3.2 and 3.3 so that the requirement is clearly 'either/or' and not both.

**Main changes**

- Outcome 3 was changed to refer to mating only which is defined in Guidance Information as referring to both natural and artificial insemination.
- The purpose statement was changed to also reflect that definition.
- PC 3.2 and 3.3 were conflated so that either artificial insemination or natural mating can be assessed.
- PC 3.4 was altered to refer to keeping records of either natural mating or artificial insemination.
- Planned review date has been extended from 31 December 2023 to 31 December 2026.
- Standard setting body changed from Primary ITO to Muka Tangata - People, Food and Fibre Workforce Development Council.
