### Republication of *Automotive Refinishing* New Zealand Qualification

#### Reviewed qualification

Ref	Version	Qualification Title (Level)	Credits
3009	2	New Zealand Certificate in Automotive Refinishing (Level 4)	160

#### Review information

Qualification Developer	Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council
Reason for the review	Extension of the last date of assessment
Review date	July 2025
Outcome date	July 2025
Next review date	September 2028

#### Summary of development/review and consultation process

The New Zealand Certificate in Automotive Engineering (Level 4) (version 2) was listed in September 2023. The last date of assessment for superseded version 1 is December 2026.

Programme development for version 2 of the qualification has been delayed due to a lack of relevant Level 4 standards. Standards development is required by Hanga-Aro-Rau Workforce Development Council to address this. The standards development and subsequent programme development will not be completed by the current last date of assessment.

This extension to the last date of assessment for version 1 of the qualification will allow Hanga Aro Rau-Aro-Rau and providers time to undertake the required development.

#### Main changes resulting from the development/review process

The last date of assessment for version 1 of this qualification was extended from 31 December 2026 to 31 December 2028.
