

## Registration of *Ecological Management* skill standards

Toi Mai Workforce Development Council has developed two new skill standards to be listed in the Ecological Management domain.

**Date published**

**June 2025**

**Planned review date**

**December 2030**

### Summary

These skill standards were developed in response to industry feedback which identified a need for training and credentials for people considering entry-level roles in conservation. Development of these standards was carried out with industry practitioners throughout 2024 and 2025. Feedback was obtained through open consultation on Toi Mai's website and incorporated conservation into the draft skill standards. Feedback received was reviewed and incorporated into the draft skill standards.

### Main changes

- Two new skill standards were developed.

### Detailed list of standards – classification, title, level, and credits

Key to review category	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new ID
<b>D</b>	Standard will expire and not be replaced

Sciences > Environment > Ecological Management

ID	Title	Level	Credit	Review category
40758	Perform conservation activities in a team environment	2	8	New
40759	Apply safety and risk assessment practices during a conservation activity	2	3	New
