

Field Manufacturing

Registration of new skill standard for *Competitive Systems and Practices*

Date new version published

March 2025

Planned review date

December 2029

Summary

A review of Competitive Systems and Practices qualifications between July and December 2024, in consultation with industry representatives and providers during online Technical Advisory Group (TAG) meetings, identified that a new skill standard was required. It was developed to fill a gap identified by the industry to focus on waste concepts. These are concepts linked to lean manufacturing and productivity in the workplace.

Main changes

- A new skill standard was developed

Detailed list of standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
