

Field Manufacturing**Review of *Competitive Systems and Practices* unit standard 18935**

Subfield	Domain	ID
Manufacturing Skills	Competitive Systems and Practices	18935

The Hanga-Aro-Rau Manufacturing, Engineering and Logistics Workforce Development Council has completed the review of the standard listed above.

Date new versions published**March 2025****Planned review date****December 2029****Summary**

Unit standard 18935 was reviewed in October 2024 as part of the required review cycle. The unit standard was considered not-fit-for-purpose and required amending to better reflect the needs of industry. Industry, providers and subject matter experts provided feedback and input into the review of this unit standard. This was achieved through online meetings and sharing documents and feedback via email.

Main changes

- The unit standard level was changed from 3 to 4 to more correctly reflect the complexity of content.
- Guidance information and performance criteria were updated for currency.
- The title was updated to reflect Total Productive Manufacturing (TPM) more clearly.

The last date for assessment of superseded versions of Category B standard is December 2025

Detailed list of standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
