Republished qualification

Ref	Version	Qualification Title	Credits
3011	2	New Zealand Certificate in Automotive Collision Repair (Non-Structural Repairer) (Level 4) with optional strand in Structural Repair Technician	120 - 200

Republished information

Qualification Developer	Transport Industry Skills Board
Reason for the republication	To extend the last date for assessment of superseded version
Review date	May 2026
Outcome date	May 2026
Next review date	September 2028 (unchanged)

Summary of republication

An extension for the last date for assessment from 31 December 2026 to 31 December 2027 has been made to the superseded version of the Automotive Collision Repair qualification listed above. This extension is essential to support learners currently progressing through this qualification and to allow the provider with sufficient time to complete the implementation of an updated programme.

Main changes resulting from republication

The last date for assessment for the superseded version of the qualification listed above has been extended from 31 December 2026 to 31 December 2027.

The qualification developer details were updated from Hanga-Aro-Rau Workforce Development Council to the Transport Industry Skills Board.

Evidence requirements for assuring consistency were removed as no longer applicable.

Transition information

Ref:	Version	Qualification Title	Last date of entry*	Last date of assessment
3011	1	New Zealand Certificate in Automotive Collision Repair (Non-Structural Repairer) (Level 4)	N/A	31/12/2027
