- 3 This unit standard applies to both new roof and re-roofing installations.
- 4 Range
- a Candidates must refer to current legislation and Standards during assessment.
 - b Demonstration of safe working practices are essential components of assessment of this unit standard.
 - c All activities and evidence presented for all outcomes and evidence requirements in this unit standard must be in accordance with:
 - i legislation;
 - ii policies and procedures;
 - iii ethical codes;
 - iv Standards – may include but are not limited to those cited in the New Zealand Building Code Hand Book;
 - v applicable site, enterprise, and industry practice; and,
 - vi manufacturers' instructions, specifications, and data sheets.

Outcomes and evidence requirements

Outcome 1

Confirm materials and equipment for installation of profiled metal roof are available.

Evidence requirements

- 1.1 Assess the job and prepare a plan of work.
- 1.2 Confirm that the materials for the job are consistent with the job specifications and manufacturer recommendations.
- Range includes but is not limited to – profiled roofing iron, flashings, sealants, fasteners.
- 1.3 Confirm that the required equipment is available.
- Range includes but is not limited to – scaffolding, ladders, tools, stapler, sealant gun, saws, pop riveter.

Outcome 2

Complete preparations for the installation of profiled metal roof.

Evidence requirements

- 2.1 Confirm that the structure is prepared for work to begin.
- 2.2 Prepare the site ready for work to commence.
- 2.3 Confirm purlins are fixed in accordance with manufacturers' specifications.
- 2.4 Mark and pre-drill sheets, where required.
- 2.5 Confirm underlay support is in accordance with manufacturers' specifications.

Outcome 3

Install profiled metal roof.

Evidence requirements

- 3.1 Remove roof, where required in accordance with job specifications.
- 3.2 Install roof in accordance with manufacturers' specifications.

Outcome 4

Complete and finish profiled metal roof.

Evidence requirements

- 4.1 Install flashings.
- 4.2 Correct any defects.
- 4.3 Remove surplus material including swarf and leave roof and site in a tidy and safe condition that allows any further work to be carried out safely.

Planned review date	31 December 2021

Consent and Moderation Requirements (CMR) reference	0003
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
