## Guidance Information

- 1 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the:

- Hazardous Substances and New Organisms Act 1996;
- Health and Safety at Work Act 2015;
- Privacy Act 2020;
- Resource Management Act 1991.

Any new, amended or replacement Acts, regulations, standards, codes of practice, guidelines, or authority requirements or conditions affecting this unit standard will take precedence for assessment purposes, pending review of this unit standard.

- 2 Definitions

*Manufacturer's instructions* refer to instructions provided by manufacturers of substances, equipment, and machinery. These instructions may include details on safe and correct handling, use and storage of substances and/or details on substance properties. Examples are labels on substance containers, product data sheets, and operator's manuals.

*Workplace procedures* refer to organisation policies and procedures that are documented in memo, electronic, or manual format and available in the workplace. They may include but are not limited to – standard operating procedures, site specific procedures, site safety procedures, equipment operating procedures, quality assurance procedures, product quality specifications, manufacturer's requirements, references, approved codes of practice, housekeeping standards, environmental considerations, on-site briefings, supervisor's instructions, and procedures to comply with legislative and local body requirements relevant to the print sector.

### 3 Assessment information

Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, workplace procedures and legislative requirements.

---

## Outcomes and performance criteria

### Outcome 1

Select the most appropriate solvents for use in wash up procedures.

#### Performance criteria

- 1.1 Establish solvent flashpoint levels, aggressiveness and toxicity for different solvent groups.
- Range Safety Data Sheets, manufacturer's and/or supplier's instructions.
- 1.2 Select solvents in accordance with manufacturer's and/or supplier's instructions.
- Range handling, storage, Safety Data Sheets.

### Outcome 2

Wash up the press using the selected solvents, and undertake post press tasks.

#### Performance criteria

- 2.1 Wash up inking system.
- Range appropriate use of safety clothing and equipment.
- 2.2 Return reclaimed ink to store for re-use, or disposal.
- 2.3 Clean plates and check for wear or damage, and rectify and report any damage.
- 2.4 Clean blanket and blanket cylinder, check for defects, and rectify or report any defects.
- Range may include but is not limited to – blanket stretch, physical damage, glazed blanket, dried ink build-up, rusted cylinders, stuck blankets.
- 2.5 Dismantle, clean and check rollers, and rectify or report any defects.
- 2.6 Dispose of plates, or prepare for storage and store.
- Range may include – identify, label, clean dry environment.
- 2.7 Clean work area.

2.8 Follow waste control procedures.

Range recyclable waste, non-recyclable waste, security waste.

<b>Planned review date</b>	31 December 2027
