

Title	Identify, remove, and fit zips in the industrial textile fabrication industry		
Level	3	Credits	3

Purpose	People credited with this unit standard are able to identify and remove zips from existing products; and fit zips to materials in the industrial textile fabrication industry.
----------------	--

Classification	Industrial Textile Fabrication > Industrial Textile Fabrication Core Skills
-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable manufacturer's information, company requirements, industry guidelines and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 2 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- 3 Definitions
Company requirements refers to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Industry guidelines refers to those practices and procedures commonly used as standard procedures to produce items of acceptable merchantable quality in the industrial textile fabrication industry such as related textbook descriptors.
Manufacturer's information may include – technical information for a machine or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 4 It is recommended that people seeking credit for this unit standard first hold credit for Unit 23497, *Demonstrate knowledge of zips used in the industrial textile fabrication industry*.
- 5 Evidence of three separate zips being removed and fitted correctly is required.

Outcomes and performance criteria

Outcome 1

Identify and remove zips from existing products in the industrial textile fabrication industry.

Performance criteria

- 1.1 Type of material from which zips are to be removed is identified.
- 1.2 Types and sizes of zips to be removed are identified.
- Range may include – plastic, metal, nylon, locking, open end, closed end, continuous.
- 1.3 Zips are removed correctly.

Outcome 2

Fit zips to materials in the industrial textile fabrication industry.

Performance criteria

- 2.1 Zips are selected and are prepared for fitting.
- Range may include – metal, nylon, plastic, locking, open end, closed end, continuous, measured, marked out, cut to length.
- 2.2 Material is prepared for zips to be attached.
- Range may include – measured, marked out.
- 2.3 Zips are fitted.
- Range may include – hand stitching, machine stitching, bonded, welded.

Replacement information	This unit standard replaced unit standard 8307. This unit standard and unit standard 23497 were replaced by skill standard 40025.
--------------------------------	--

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	23 January 1998	31 December 2020
Revision	2	8 May 2001	31 December 2020
Review	3	26 March 2007	31 December 2020
Rollover	4	27 January 2015	31 December 2020
Review	5	28 February 2019	31 December 2026
Review	6	30 May 2024	31 December 2026
