

Title	Construct perspective drawings for use in furniture making		
Level	3	Credits	6

Purpose	People credited with this unit standard are able to: prepare to construct, and construct, perspective drawings for use in furniture making; and store drawings and equipment.
----------------	---

Classification	Furniture > Furniture and Cabinet Making
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Assessment information
This unit standard may be assessed against on-job or off-job.
Job specifications and simple drawings must conform to current commercial industry practice.
All activities and performance criteria must be carried out in accordance with worksite policies and procedures.
- 2 Range
Competence must be demonstrated in single-point and two-point perspective drawing for the following furniture items – bedside cabinet, table, dining chair, desk, bookcase. For the purpose of this unit standard drawings may not be generated using an automated computer program.
- 3 Drawings must be completed by hand or using a computer aided drawing system (CAD).
- 4 Definition
Worksite policies and procedures refer to documented policies and to documented or other directions provided to staff. These may include, but are not limited to, ways of managing health and safety, environmental considerations, quality, and production, and must conform to legislation. Examples include standard operating procedures, company health and safety plans, on-site briefings, and supervisor’s instructions. For the purposes of this unit standard worksite policies and procedures may also refer to the policies and procedures of an off-job training site.

Outcomes and performance criteria

Outcome 1

Prepare to construct perspective drawings for use in furniture making.

Performance criteria

- 1.1 Job specifications are obtained and interpreted.
- 1.2 Equipment selected and prepared is checked to confirm it is in working order and of the quality required to produce the drawings required by job specifications.
- Range equipment – drawing board, T-square, pencils, erasers, set-squares, scale rule, drawing paper, paper-fastening medium.
- 1.3 Drawing paper is attached to the drawing board.

Outcome 2

Construct perspective drawings for use in furniture making.

Performance criteria

- 2.1 Perspective drawings are set out in accordance with job specifications.
- Range picture plane, ground line, station point, eyeline, vanishing points, plan, perspective view.
- 2.2 The features of the perspective drawing are drawn in accordance with job specifications.
- Range features include – scale, dimensions, line quality, line width, line density, positioning of picture plane, positioning of vanishing points, positioning of ground line, positioning of eyeline, distortion.
- 2.3 The general principles of the perspective drawing are in accordance with job specifications.
- Range principles include – terminology and abbreviations used in technical drawings, materials, sizes and layout of drawing sheets, types and thicknesses of lines, types and dimensions of letters, numerals and symbols, drawing scales, projectioning.

Outcome 3

Store drawings and equipment.

Performance criteria

- 3.1 Drawings are stored appropriately.
- 3.2 Equipment and unused materials are stored appropriately.
- 3.3 Equipment and work area are made clean, clear, and safe.

Planned review date	31 December 2024
