Guidance Information

Definitions

Hauora means the appropriate practices associated with the holistic wellbeing of an individual as a member of a whānau, hapū, and iwi. For the purpose of this unit standard, these practices are determined by service providers or entities that operate within a hauora context.

Hauora context refers to a hauora service provider capacity and environment.

Outcomes and performance criteria

Outcome 1

Analyse the effectiveness of Māori primary health care provision from a Māori perspective.

Range evidence of services from one Māori primary health care provider.

Performance criteria

1.1 Services selected are analysed in terms of their quality and effectiveness in meeting the needs of Māori.

Outcome 2

Analyse the effectiveness of mainstream primary health care provision from a Māori perspective.

Range evidence of services from one mainstream primary health care provider.

Performance criteria

- 2.1 Services selected are analysed in terms of their quality and effectiveness in meeting the needs of Māori.

Outcome 3

Consult with key stakeholders to determine any changes required to maximise the effectiveness of primary health care for Māori.

Range key stakeholders – clients, iwi organisation, hapū organisations, health care professionals, health care providers.

Performance criteria

- 3.1 Key stakeholders are consulted with in terms of determining the availability and effective of services for meeting the needs of Māori.
- 3.2 Any changes to the services provided and/or standard of care are determined in terms of their effectiveness in meeting the health needs of Māori.
