Guidance Information

- 1 Definitions of Māori words will be those relevant and in common usage in a hauora context. However, the local iwi or hapū must verify the local dialect.
- 2 Definitions
Hauora means the appropriate practices associated with the holistic wellbeing of an individual as a member of a whānau, hapū, and iwi. For the purpose of this unit standard, these practices are determined by service providers or entities that operate within a hauora context.
Hauora context refers to hauora service provision for Māori.
Concepts and key dimensions refer to the tikanga, characteristics, and key features specific to a particular Māori model of health. For example, in te Whare Tapa Whā these would be *taha wairua*, *taha tinana*, *taha hinengaro*, *taha whānau*.
- 3 Workplace practices and procedures refer to the documented procedures of the hauora service provider and must comply with current industry standards and relevant legislation.
- 4 Legislation and conventions relevant to this unit standard may include but are not limited to: the Health and Safety at Work Act 2015; *Standards for Traditional Māori Healing* (Wellington: Ministry of Health, 1999); and the Health and Disability Commissioner (Code of Health and Disability Services Consumers' Rights) Regulations 1996, and any amendments.
