----------------	---

Classification	Seafood > Seafood Processing
-----------------------	------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 All evidence presented in this unit standard must be in accordance with:
 - Workplace procedures;
 - Animal Products Act 1999;
 - Food Act 2014;
 - Health and Safety at Work Act 2015;
 and any subsequent amendments.

- 2 Definitions

Corrective action refers to the action taken following the identification of a non-compliance issue. It includes restoring control, dealing with any affected product, identifying the root cause of the non-compliance and putting steps in place to prevent reoccurrence.

Individual system refers to an individual system or procedure that has been implemented in a seafood operation as part of the all-encompassing compliance system. These individual systems may also be known as support systems or prerequisite programmes.

Workplace procedures refer to the policies and procedures set out in a verbal or written form by the employer or organisation. Procedures must reflect current legislative requirements.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of the key features of an individual system in a seafood operation.

Performance criteria

- 1.1 Describe the key features of, and reasons for, the individual system.
 Range key features include but are not limited to – purpose, responsibility, monitoring, frequency, corrective action, records.
- 1.2 Describe examples of potential non-compliance and the associated corrective action, when monitoring the requirements of the individual system.
 Range evidence of three non-compliance issues is required.
- 1.3 Describe the consequences of not implementing effective corrective action for identified non-compliance.

Outcome 2

Complete the monitoring of an individual system in a seafood operation, identify non-compliance, and take corrective action.

Performance criteria

- 2.1 Carry out the monitoring of the individual system.
- 2.2 Identify any non-compliance during the monitoring of the individual system.
- 2.3 Take corrective action for any identified non-compliance.
- 2.4 Complete records of the monitoring, any identified non-compliance, and associated corrective action taken, in accordance with the requirements of the system.
