Organisational procedures referred to in this unit standard may include but are not limited to the applicable procedures found in the following: organisational performance guidelines and standards; Government and local body legislation.

Outcomes and evidence requirements

Outcome 1

Demonstrate specialist knowledge of characteristics of dairy products.

Evidence requirements

- 1.1 Characteristics of dairy products are described based on a variety of sources in accordance with organisational procedures.
- Range sources may include but are not limited to – product packaging, product usage, manufacturer or supplier publications, research reports, catalogues, magazines, recipe books, internet, training material, trade associations;
evidence is required of four sources
- 1.2 Production and packaging processes for dairy products are described.
- Range production processes may include but are not limited to – cultured, sterilised, homogenised, pasteurised, dried, smoked;
packaging may include but is not limited to – loose, glass, plastic, foil, vacuum, shrink wrap;
evidence is required for production and packaging of four different items.
- 1.3 Characteristics of dairy products are described in relation to types of product.
- Range characteristics – freshness, appearance, taste, aroma, texture, colour, shelf life, ingredients;
evidence is required for characteristics of one item for each type of dairy product.
- 1.4 Quality standards for dairy products are described for specified items.
- Range quality standards may include but are not limited to – ingredients, preparation methods, freshness, maturity, consistency, extent of processing, content, additives, country of origin, packaging;
evidence is required for quality standards of four different dairy products.
- 1.5 Contamination of dairy products is described in terms of characteristics and control.
- Range contamination – chemical, physical, microbiological;
control – prevention, treatment.
- 1.6 Handling and storage conditions and effect on product life of dairy products are described for specified items in terms of food safety, hygiene, and effect on product life.
- Range storage – commercial, domestic;
temperature – frozen, refrigerated, chilled, room;
evidence is required for storage of products in each situation.
- 1.7 Legislation applicable to storage, handling and use of dairy products is identified and its application within the delicatessen is described in accordance with organisational procedures.

Outcome 2

Demonstrate specialist knowledge of uses of dairy products.

Evidence requirements

2.1 Information given to customers on uses of dairy products is presented in accordance with organisational procedures.

Range customer information may include but is not limited to – product description, product differentiation, complementary products, recipes, brochures, presentation suggestions.

2.2 Domestic preparation and serving methods for dairy products are described for specified items.

Range evidence is required for preparation and serving of four different types of dairy product.

2.3 Knowledge of dairy products to meet customer special needs is demonstrated in accordance with organisational procedures.

Range special needs may include but are not limited to – alternative product, ethnic, religious, adaptation to customer taste, dietary requirements, allergic reactions, low fat, special occasions; evidence is required of knowledge provided in response to three types of special needs.

2.4 Nutritional value of selected items within each type of dairy product is described in relation to ingredients, diets and customer uses.

Process	Version	Date	Last Date for Assessment
Registration	1	30 July 1999	31 December 2018
Review	2	21 February 2005	31 December 2018
Review	3	8 December 2016	N/A

Consent and Moderation Requirements (CMR) reference	0225
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMRs). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
