Guidance Information

1 Definitions

Company requirements refer to instructions to staff on policy and procedures that are communicated in an oral or written form. These requirements must include legislation and safety requirements and may include but are not limited to, industry codes of practice and standards.

Processing includes cutting, shelling, freezing, and the use of all other methods of manufacture and preservation, as defined in the Fisheries Act 1996.

Manage systems in this unit standard may include but is not limited to the – development, implementation, application, monitoring, on-going improvement and audit of the systems to ensure legislative compliance with fisheries legislation.

2 Fisheries legislation requirements include but are not limited to the Fisheries Act 1996, associated regulations and subsequent amendments.

Outcomes and performance criteria

Outcome 1

Manage the systems for post-harvest seafood processing on a commercial fishing vessel.

Performance criteria
